

LIBERI LUDI CREATIVE SPACE

A meeting place for artists, arts educators and art teachers

Liberi Ludi helps children who have arrived in a new country connect with their peers through art, storytelling and animation. **Creative Space** is the digital home of our community of artists and arts educators: a place where you present yourself and your projects, and where colleagues, NGOs, festivals and partners across Europe can discover your work and connect with you.

A DEVELOPMENTAL ENVIRONMENT

We build on the **Read, Cut & Film** method: children choose a story, make their own short films from it in 1–2 hours and present the results. But we are glad to support a wide range of projects that develop children through art. Method details at liberiludi.com.

WHO WE INVITE

Artists, illustrators, animators, workshop leaders and art teachers. Both those with their own experience of migration and those who simply want to help children adapt and grow through art. Participation is free.

WHAT YOU GET

- **Let the right people find you.** NGOs, schools, cultural centres and partners across Europe can view your profile and contact you directly. Liberi Ludi is a platform, not an intermediary.
- **Grant support.** Liberi Ludi Creative Space is your bridge to funders: either a place in one of our programmes (publishing, tutoring, teaching), or a relevant grant opportunity we help you find. If you have your own project, we will help you prepare the application. The decision is always yours.
- **For educators.** Step-by-step session plans, the **Babiling Animation Kit**, and guidance on helping children adapt to a new country through art.

HOW TO JOIN

- 1 Fill in a short form at liberiludi.com/creative-space (10 minutes).
- 2 Choose your role (artist, workshop leader, art teacher) and how you would like to work with children.
- 3 We publish your profile and let you know when a relevant grant, a partner request or a new teaching resource appears.
